

Declaration upon loading of fish

Packaging – drainage – cost liability

Date: Time:

Sender / cargo owner / transport buyer:

Business registration number:

Carrier / Transport company: Driver:

Vehicle reg. number: Trailer reg. number:

Waybill / order number:

Loading location: Unloading location:

1. Cargo packaging

Information from sender/cargo owner:

☐ **SEALED BOXES / WATERPROOF PACKAGING**
The fish is packaged in such a way that liquid cannot leak out during normal transport.

☐ **NON-SEALED BOXES / OPEN PACKAGING**
The fish is not packaged in a way that necessarily prevents liquid/drainage.

☐ **OTHER:**

2. Pre-departure inspection

Driver's inspection:

- ☐ No visible drainage upon departure.
- ☐ Visible liquid/drainage during loading.
- ☐ The packaging does not appear to be sealed.
- ☐ Sender has been notified of the risk of drainage.
- ☐ Temperature of fish, where measured:
- ☐ Inspection not possible due to sealing or similar.

This document does not replace a waybill. In cases where a waybill has been issued, this document is considered a supplement to it.

The sender has been made aware that **drainage from the vehicle may lead to infringement fines and other costs**, and that both the driver and the transport company may be held liable under applicable regulations.

If drainage occurs as a result of conditions relating to the fish, the packaging, or the sender's handling of the cargo, the carrier may claim compensation for their financial loss resulting from this, including fines imposed on the driver or the carrier, cf. for example Section 14 of the Road Freight Transport Act.

By signing, the sender confirms that the information above is correct, and that the sender is aware of the liability and cost conditions described in this document.
